HOW TO USE: **CONNECT**

Share digital data quickly and efficiently to keep track of key asset and project information

DIGITAL INFORMATION AT YOUR FINGERTIPS

Hold whatever information you need –
whenever (and wherever) you want:

- ✓ Photos
- ✓ Text
- ✓ Hyperlinks
- ✓ Maintenance documentation
- ✓ Video links
- ✓ Voice memos
- ✓ Instructions
- ✓ GPS location data
- ✓ And more...

BR CODE™ SCANNABLE SOLUTIONS USE CASES

ASSET & MATERIALS MANAGEMENT

- Track equipment location
- Add materials accountability
- Access asset data
- Document shipments and deliveries for instant proof

SAFETY & INSPECTIONS

- Document safety inspections
- Manage safety training
- Record personnel certifications
- Access emergency contact information

MAINTENANCE RECORDS

- Track equipment maintenance, including preventative
- Record when work was done
- Manage components/parts, warranties and more

Think about the **CHALLENGES** you face in
accessing **INFORMATION**
to run an **EFFICIENT** operation...

Now, let us introduce you to a **SOLUTION** that has helped
companies save from \$500 to \$500,000!

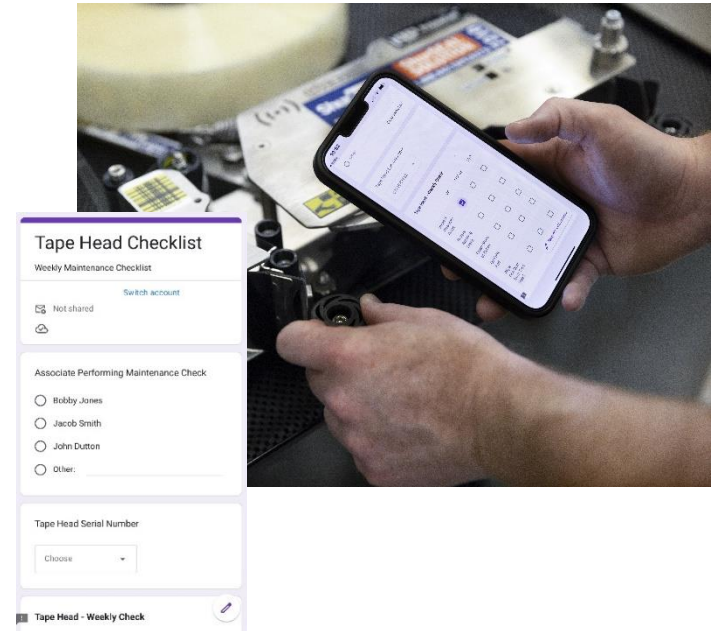

IN ACTION: MAINTENANCE RECORDS

USER: A CPG manufacturing plant

CHALLENGE: Missed preventative maintenance steps on critical capital assets; wasted time accessing machine manuals and drawings; poor maintenance history records

SOLUTION: Tape + Tech to **ALERT** when PMs are required; **ACCESS** to checklists, machine manuals and drawings; **CONNECTIVITY** to in-house maintenance software or cloud-based pass down logs

RESULT: **AN EFFICIENT MAINTENANCE PROGRAM**

IN ACTION: ASSET & MATERIAL MANAGEMENT

USER: A producer of specialty chemicals and materials for electronics devices

CHALLENGE: Rework from damage to shrink wrap (caused by shipping company)

SOLUTION: Tape + Tech to **DOCUMENT** the condition of shipments when leaving the facility, providing visible **PROOF** through photo evidence

RESULT: **\$500 IN REWORK SAVED BY PROVING THE SHIPMENT LEFT IN EXCELLENT CONDITION**

IN ACTION: ASSET & MATERIAL MANAGEMENT

USER: A national leader in electrical planning, engineering, design and installation

CHALLENGE: Tracking materials in laydown yards

SOLUTION: Tape + Tech to **TRACK** lighting assemblies, including connecting **TIMESTAMPS**, **GEOLOCATION** data, shipping tickets and photos; also used to track the checking in and out of tools

RESULT: **\$500,000 IN SAVINGS IN 8 MONTHS**

IN ACTION: SAFETY & INSPECTIONS

USER: A commercial construction company

CHALLENGE: Documenting safety data to ensure compliance and easy access

SOLUTION: Tape + Tech to **DOCUMENT** the completion of safety training; **TRACK** certification of equipment and licenses to operate; and **RECORD** inspections, equipment photos and operator's manuals

RESULT: A COMPLETE OSHA-READY SAFETY PROGRAM
